Our Online Lives Tell Us About Our Offline Selves (Broadway Books; on sale September 8, 2015), a daring and visually arresting book filled with charts, graphs, and photos, OkCupid cofounder Christian Rudder puts our personal information to a new use: helping us understand human nature. Because we live so much of our lives online, digital data can show how we fight, how we love, how we age, how we change, and what we really want.

became this book, after one important improvement. For Dataclysm, I've gone far beyond OkCupid. In fact, I've probably put together a data set of person-to-person interaction that's deeper and more varied than anything held by any other private individual—spanning most, if not all, of the significant online data sources of our time.

How different are your online and offline personalities ...

In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters.
